PLAN OF THE PROPOSED EXCHANGE.

TO ISSUE \$100,000,000 SECOND MORTGAGE BONDS TO RETIRE INCOME BONDS AND PRO-

VIDE FOR IMPROVEMENTS. The official aunouncement of the proposed bond programme of the Atchison, Topeka and Santa Fe will be made public next Wednesday. The following preliminary statement, however, has been made by Vice President Reinhart, confirming the outline given

in Friday's Tribune : The Atchison plan of conversion contained in circular No. 68, which will be published in full May 25, is the completion of the reorganization plan put in effect October 18, 1889, and returns the obligations of the company, including its income bonds and capital stock, to a fixed and stable basis. The necessity of the reorganization of the Atchison comings of the company for the year ended June 30, 1889, were but \$6,772,000, owing largely to the loss credits brought about by a floating debt of \$12,-000,000 and no cash in hand nor means of procuring the same to place the property in such condition that the road could be operated to produce the best re-sults. The income bond created under the reorganization was a temporary expedient, and was such an obligation, which was made so elastic as to permit the management of the company to use all of the cash above the obligatory fixed charges of the company, should occasion so require.

After an experience of three years with the money so provided as well as the cash produced under the reorganization, the company reaches a point where the net earnings for the current fiscal year to June 30 will not be less than \$11,700,000, which includes earnings from railway operations as well as not cash returns from investments. This amount of net earnings has grown steadily since the successful outcome the reorganization, thus rendering substantial proof that, with ample means at command of the company, not alone should the net earnings be made to increase, but that the holders of all classes of obligations of the company, including the capital stock, can know hereafter precisely what the operations of the company are, as well as the intrinsic worth of their

"The plan provides for the creation of a second mortgage, under which there will issue at once interest, beginning July 1, 1892, at 2 1-2 per cent for the first fifteen months, 3 per cent for the year beginning October 1, 1893, 3 1-2 per cent for the year beginning October 1, 1894, and 4 per cent for the year beginning October 1, 1895, and thereafter. Also for \$20,000,000 bonds issued under same indenture, termed Class B, carrying interest, beginning with July 1, 1892, at 4 per cent annum, under which no greater amount than \$5,000, 000 in any one year can issue, the proceeds of which will apply specifically and only to improvements, in cluding equipment, on existing mileage of the Atchison, Topeka and Santa Fe Railroad system, as it is described in circular No. 63.

"It is also provided that if the improvements do not call for the Issue of \$5,000,000 of these bonds in any one year the excess amount of such proceed, can apply in the year next following, but in no one year to more than the proceeds of \$5,000,900. At the expiration of four years classes "A" and "B" become identically the same bond issue. Coupons under these bonds are payable semi-annually. The outside amounts of the hard charges of the company in the four years beginning with July 1, 1022,
will be as follows: For the mist year, \$10,200,000,
for the second year, \$10,700,000, for the third year,
\$11,000,000. As before stated, the net earnings for
the current year ending sume 30, 1802, are not less
than \$11,700,000, and the position of the company, with
ample and stated means provided for improvements,
can be readily seen. Improvements referred to include
equipment. The first cal access, for over \$2,500,000, covering cars purement in 15:00 and 18:01 for the company,
has been cancelled and the property covered by the

In the reorganization. In the Alchison company's accounts it has been the custom to include in operating expenses items strictly improvements, in the form of renewals of absolutely new material and structures replacing those of lesser production. Talsclass of construction and machinery will also be covered with the proceeds from the class B second mortage bonds thus tending to a reduction of the operating expenses are naturally decreased by improved condition of plan, so that with the experience the management has had, it feels entirely safe in returning the company and its obligations to a permanent tasks, whis in the management has always had in contemplation from the time when necessity for reorganization arose. The first issue of Class B bonds will be offered to present income bondholders and the subscription has been underwritten. Two and one-half per cent interest payable September 1, 1802, has been declared on income bond coupons for current year to June 30."

RICHMOND TERMINAL COMPLICATIONS. The security-holders of the Richmond Terminal will meet to-morrow at the office of Work, Strong & Co., to hear the report of the committee composed of W. E. Strong, General Samuel Thomas and W. Clyde. It is thought that the plan which will be suggested to the security-holders will be the consolidation of the Richmond Terminal and the Richmond and Danville systems, and the issur of new consolidated bonds for the present securities. The assessment proposed on the Terminal junior securities will be represented in a new obligation.

When the Strong-Thomas plan is published it is expected that the Bloodgood-Calhoun party will proceed to dissect it. John Bloodgood yesterday ex pressed his views of the situation as follows: "In regard to Richmond Terminal matters, there is in my opinion but one solution of its difficulties, and not the speculators, should call a meeting and rea reorganization of the property. If this were is much more valuable than they now think it is, and the securities would advance largely. All these meetings called by General Thomas and his friends amount to nothing. Mr. Olcott and his friends struggled for six months without accomplishing anything. The reason why all these so-called re-organization schemes are failures is that they are merely gotten up to put people in control of the property who propose to make as much out of it as possible."

ANOTHER VETO MESSAGE FROM THE MAYOR. Mayor Wanser's message to the Street and Water Board on Friday was followed yesterday by another veto message to the same Board, in which he calls attention to the fact that the Commissioners have paid and are still toying to pay saluries to persons who were never legally appointed to public positions. A resolution of the Board, ordering the payment of amounts ranging from 824 to 890 to each laborers and helpers, for work on unpaved streets in the month of April, the total amount being \$254, is quoted, after which the Mayor says that the men designated were appointed by committee, and that such an appointment is not an official act of the Board. The appoint ment is no more, he says, than the appointment by the chairman of the Board, unless the lioard acquiesces by a resolution. The only official evidence of the men's emphyrment is the appearance of their names on the pay rolls. This is not an official act and cannot make the employment in the first instance the official act of

MORE BALLOT-BOX STUFFERS SURRENDERED. Two more hallot-box stuffers were surrendered by their bondsman, John Regan, yesterday morning. They were Thomas Nelson and John Farrant. Farrant was reballed in the sum of \$2,000 by Commissioner William R. Cook, and Nelson, by Commissioner E. A. Dugan. In giving up the men the bondsmen have made some such excuse as the transfer of property, but it is gen erally known that in both cases the men were given up because of the well-founded rumor that the Court of Appeals has affirmed their conviction.

John Burgner, foreman of a gang of men who were tearing down an old three-story frame house at No. 253 Newark are, the other day, found part of a counterfeiter's outfit which had probably been in the building for forty years. The plates had nickel facing and bore signatures, words and devices that charac-terized the \$5 and \$10 bank notes issued by the states of New York, Connecticut and New-Hampshire before the National banking system came into vogue. The plates were wrapped in a copy of "The New York Hereld" of the date of August 20, 1850, Each plate bears the small imprint: "Govill Manu-lacturing Company, Extra." Only two of the plates are the full bank-note size.

PASSAIC. The Board of Excise organized on Friday night by electing John J. Bowes president. The license fee for saloons was raised to \$500. Hitherto it has been \$200. The fee for wholesale liquor stores has bee made \$500, in place of \$150, the farmer figure. It is expected that this large increase will greatly diministhe number of applications for licenses. that a lower fee will be set for holels and restaurants. The three Republican members, Messrs, Fuller, Falstrom and Howes, who were elected on the high-license Issue, voted in favor of the changes. They were opposed by the Democrats, Messrs. Earle and Kane.

A three-year-old child died from smallpox at No. 38 Statest., yesterday morning. This is the sixth case and the fourth death since April 10. The house is the one where the original patient, a Polish immigrant, was found. The building was fundigated and the occupants vaccinated at the time. Mayor Brown aitended the special meeting of the Board of Headth on Friday night and urged that extreme measures be taken to stamp out the disease, saying that the city government would gladly bear the expense. A resolution was passed asking the Council to erect insmediately a temporary hospital, with rooms for attendants. It will be made ready to receive twenty patients in a week's time. At present there are only two cases.

Tidings were received here yesterday of Howard Emerson, the young New-York lawyer, who has been missing from his Plainfield home for two weeks under circumstances which point to money difficulties. Emer circumstances which point to money difficulties. Emerson was connected in a business way with the Stillman estate, and suddenly left home when it was expected that an accounting of the estate's financial affairs was to be made. T. H. Keilar, manager of the Plainfield baseball club, arrived home from Washington yesterday, and reported having seen Emerson in that city three days ago. He says that the young lawyer looked Haggard and worried. When asked why he had gone away from home so suddenly and absented himself for two weeks. Emerson simply said that he had been sick. He promised to meet Mr. Kellar again that afternoon, but failed to keep the appointment. Since then all trace of him has been lost.

MOUNT VERNON.—An interesting and successful surgical operation was performed at the Mt. Vernon Hospital last week. An Italian boy, seventeen years old, was brought to the hospital suffering from a pistolision wound, the ball having perforated the abdominal wall and the small intestines. Dr. Thomas F. Goodwin, one of the hospital staft, performed the operation of laparotomy in the presence of others of the strigical staft. The holes in the small intestines were sewed up with catenat threads, the intestines were washed and replaced; the muscles were also stitched with catenat, and the external wound was closed with silk. The wound was then covered with gauze and the patient placed in bed with hot bottles around the externities. The wounds have nearly healed, the patient's appetite has returned and the prospects are for his complete recovery.

TO THE PUBLIC

We have noted in the last few years that in the Spectacular Exhibitions at Manhattan Beach, the Fireworks Displays have really given more pleasure than the Spectacle itself. It was therefore decided at the close of last season to confine the exhibition this year strictly to fireworks. In order to properly carry out this plan, we

naturally turned to Brock, whose immense displays at the Crystal Palace, London, are one of the sights of that great city and famous throughout Europe. We have succeeded in making a contract with Messrs. Brock for dis plays at Manhattan Beach this season on such a scale and of so novel a character as will, we believe, astonish and delight the American public. Certainly nothing approaching the magnificence of these displays has ever been seen in this country.

CHARGED WITH BEING AN IMPOSTOR.

A man who called himself the Rev. William R

his claim to be a clergyman of the Established Church of Scotland, could not get admission to the New-York Presbytery of the United Presbyterian Church of last week. The Rev. Charles B. Smyth of No. 61 West Eighty-sixth-st., who is a member the Presbytery, told other members that Macdonald was an impostor and a boarding-house swindler. He said he recognized Macdonald as a man who two years ago had called himself the Rev. W. F. Alberga, an Episcopultan, and had failed to pay for his board at

lation of the grammar school to the high school. President Eliot, of Harvard, speaking of the grammar schools of the United States, said: "We are all wrong in supposing we have the best school system in the There is not a country in the north of Europe a house in West Eighty sixth st. to which he had obtained admission by using the Rev. Mr. Smyth's name. The landlady of that house also said she that has not a better system. Immigrants who come eived far better school training in what are depominated the common branches than the average of the rural population of this country. In our demo-eratic schools we close the gate to the scholar in all interesting studies after the age of thirteen. Not a chance for science or literature, unless one can go to a light school." recognized Macdonald at the house of Mrs. Beech, No board by using the name of the Rev. Robert W. Kidd, of the Seventh Avenue United Presbytcrian Church. The man denied that he had formerly been snown as Alberga, but he was compelled to leave Mrs. Beech's house. Exercision tickets from New York to Philadelphia and return will be sold by the Pennsylvania Rallroad, May 28 to June 2, inclusive, on account of the Philadelphia Horse Show, at 34 70, including admission.

A special main of palace horse card will be run from New-York to the grounds on May 29, for the benefit of cycliphics.

superintendent Byrnes, giving information of Mac-danald's presence in the city. The letter was re-ferred to Chief Inspector Steers, who detailed De-tective-Sergeant Sheldon to make an investigation. Mr. Steers said yesterday that there was no com-plaint in the Detective Bureau on which Macdonald could be arrested.
